

# Upgrade to the New RPD App

## Dear User,

We've upgraded the RPD app to the latest version with enhanced features and a better user experience. Follow these steps to ensure a smooth transition:

## Why Uninstall an Old App

The current version of the RPD app is developed using Swift technology, while the new version is developed in React Native. As both versions are built on different technologies, it is required that users first uninstall the old RPD app before installing the new version.

# Step-by-Step Guide

---

## 1. Uninstall the Old App

- Locate the RPD app on your device.
- Press and hold the app icon.
- Tap Uninstall to remove the old app

## 2. Install the New App

- Open the App Store on your device.
- In the search bar, type RPD App and press search.
- Find the app and tap Install.

## 3. Verify the App Version

- Once installed, open the app.
- Go to the Settings screen within the app.
- Confirm the version displayed is 2.1.3.
